

Voyager Fuel Card

Thursday, January 3, 2019

The State of California, Department of General Services (DGS) and U.S. Bank National Association (U.S. Bank) have amended the current fuel card (Voyager) provider contract (Participating Addendum No. 7-16-99-27). The amendment extends the agreement from December 31, 2018, to December 31, 2020. Agencies participating under the contract do not need to resubmit a State Agency Subscription Agreement (STD. 213) nor is any other action required.

The amended agreement can be viewed at the DGS Cal [eProcure](http://www.caleprocure.ca.gov) website at www.caleprocure.ca.gov.

In addition to extending the agreement, the amendment introduces U.S. Bank's Voyager Maintenance Solution. The Voyager Maintenance Solution is a cardless maintenance services payment tool for optional use by non-state governmental agencies only. For further information about the Voyager Maintenance Solution, contact your U.S. Bank representative directly or email U.S. Bank at intouchwithus@usbank.com.
